Hello!
We're INTERNET TESTING SYSTEMS

About us:

We're a leading provider of online solutions for assessment programs. We deliver over 17 million assessments per year, across the globe, in 56 languages. Our satisfied clients value our innovative technology, unique customization options, and superior client service.

ASSESSMENT SERVICES:

- **Item Workshop**, our item banking system, supports basic and advanced item types with a customizable workflow.

- **Secure Testing** provides readiness tools and locked-down browsers for high-stakes test delivery.

- **Oral Exams** provide an interview-style, in-person testing experience with remote delivery options.

- **In-Training Exams** support delivery at any location, with tools to manage administrations in real time.

- **Practice Tests** offer easy setup and test publishing to help you grow your program's reach while helping candidates master and retain concepts.

- **Continuous Certification** is a platform that merges learning with assessment, allowing both summative and formative testing options.

- **Remote Proctoring** expands options for the future, providing integration flexibility while still following best practices.

OUR COMMITMENT

We focus on our partners' priorities first. Our highly customizable technology can be branded and configured to suit your needs.

OUR TECHNOLOGY

Our technology was one of the first of its kind. Our systems are mature, established, and proven in the assessment industry. We provide secure, reliable, online test delivery across platforms and the world.

OUR INNOVATION

We're dedicated to constantly innovating our technology. In fact, we spent over 40,000 hours on development last year alone. By upgrading and reinvesting in our technology, we help your program stay ahead of the curve.
